Backer Backside Protection

CentralGuard combines the durability of ceramic and select inorganic pigments with the strength of a proprietary silicone polyester resin to deliver a durable finish, no matter the weather.

- Ceramic pigments are practically unaffected by acid rain and pollution.
- They resist color fade even in the most hostile environments
- Silicone polyester resin resist dirt, staining and abrasion
- Excellent fade and chalk resistance

The result is one tough paint that will endure the physical stresses of the elements.

Some metal fades by comparison. Choose your material carefully.

	Brand New Roof Just installed Perfect Color Match	After 7 Years No noticeable color change. Still looks new.	After 15 Years Still no apparent color change. Curb appeal is still strong	After 22 Years Minimal color change. Your home still looks great	After 30 Years Still barely noticeable. Roof will look great for years to come.
CentralGuard® by Central States					
Other Metal Roofs					
	Brand New Roof Just installed Perfect Color Match	After 7 Years A slight discoloration is beginning to be noticeable	After 15 Years Significant fade, noticeable in shaded areas. Energy savings is decreased.	After 22 Years Very noticeable color change. Roof looks faded and old.	After 30 Years Overdue to replace. This time call Central States

Why choose CentralGuard®?

Sunlight, UV rays, acid rain, ice and snow make most roofs fade faster.

CentralGuard offers superior resistance to fade, dent and rust.
